Title: 7 CFR Part 1728, Electric Standards and Specifications for Materials and Construction.

OMB Control Number: 0572–0131.

Type of Request: Extension of a currently approved collection.

Abstract: RUS provides loans and loan guarantees in accordance with the Rural Electrification Act of 1936, 7 U.S.C. 901 et seq., as amended, (RE Act). Section 4 of the RE Act requires that the Agency make or guarantee a loan only if there is reasonable assurance that the loan, together with all outstanding loans and obligations of the Borrower, will be repaid in full within the time agreed. In order to facilitate the programmatic interests of the RE Act and, in order to assure that loans made or guaranteed by the Agency are adequately secure, RUS, as a secured lender, has established certain standards and specifications for materials, equipment, and the construction of electric systems. The use of standards and specifications for materials, equipment and construction units helps assure the Agency that: (1) Appropriate standards and specifications are maintained; (2) RUS loan security is not adversely affected, and; (3) Loan and loan guarantee funds are used effectively and for the intended purposes. The regulation, 7 CFR part 1728, establishes Agency policy that materials and equipment purchased by RUS Electric Borrowers or accepted as contractor-furnished material must conform to Agency standards and specifications where established and, if included in RUS Publication IP 202-1, "List of Materials Acceptable for Use on Systems of Agency Electrification Borrowers" (List of Materials), must be selected from that list or must have received technical acceptance from RUS.

Estimated Number of Respondents: 38.

Estimated Number of Responses per Respondent: 2.63.

Estimated Total Annual Burden on Respondents: 2,000 hours.
